

Dear **Nina** and **Kim**,

You're gone a short time but we already miss you.

We decided to write this letter to you, because you marked us in special way.

So, in this letter we will write how each of you were unique.

NINA, at the first you looked energetic, fun...and someone that doesn't like to show her real feelings, but then with all our conversations, (what is normal) you started to open to us in a fantastic way. With you we know that our friendship will never end.

KIM, you looked a little shy, but you are very extrovert and friendly, we know this became every time we went out, you showed another face, a interesting personality that we enjoyed very much to get to know.

We hope to see you soon, in Vienna or here in Portugal.

Kisses Marta and Susana

Letter to one of the teachers

Hi, teacher Tuncay

We just want to tell you that we liked meeting you very much. You are so funny when you're nervous and scared with everything and everyone.

We have enjoyed your presence here so much and we hope you have enjoyed it too.

We never thought we could meet a teacher so worried about his students like you. We want to see you again because we liked you very much so if you can, come back to Portugal with your students.

Love,

**Diana nº11
Andreia nº6
Cláudia nº8**
